Zennio®

2 fold 0-10 V analog input/output multifunction module

ZIO2X010

FEATURES

- 2 connections than can be configured as 0-10 V output, 0-10 V input or 4-20 mA input

- Inputs/outputs are galvanically isolated from the KNX bus

- Inputs/outputs are galvanically connected together

- Manual operation of the 0-10 VDC outputs

- 1 fan coil module

- 2 thermostats

- 10 logic functions

- Total data saving on power failure

- Integrated KNX BCU (TP1-256)

- Dimensions 67 x 90 x 36 mm (2 DIN units)

- DIN rail mounting according to IEC 60715 TH35, with fixing clamp

- Conformity with the CE, UKCA, RCM directives (marks on the right side)

Figure 1: MINiBOX 0-10V X2

1. Multifunction inputs/outputs	2. 0-10V output status LED	3. 0-10V output control button
4. Programming/Test button	5. Programming/Test LED	6. KNX connector 7. Fixing clamp

Programming/Test button: short press to set programming mode. If this button is held while plugging the device into the KNX bus, it enters the safe mode. If this button is held for more than 3 seconds, the device enters the test mode.

Programming/Test LED: programming mode indicator (red). When the device enters the safe mode, it blinks (red) every half second. The manual mode is indicated by the green color. During the start-up (reset or after KNX bus failure) and if the device is not in safe mode, it emits a red flash.

GENERAL SPECIFICATIONS

CONCEPT			DESCRIPTION		
Type of device			Electric operation control device		
KNX supply	Voltage (typical)		29 VDC SELV		
	Voltage range		21-31 VDC		
	Maximum consumption	Voltage	mA		mW
		29 VDC (typical)	17.1		495.9
		24 VDC[1]	22.5		540
	Connection type		Typical TP1 bus connector for 0.8 mm Ø rigid cable		
External power supply			Not required		
Operation temperature			0 .. +55 °C		
Storage temperature			-20 .. +55 °C		
Operation humidity			5 .. 95%		
Storage humidity			5 .. 95%		
Complementary characteristics			Class B		
Protection class			III		
Operation type			Continuous operation		
Device action type			Type 1		
Electrical stress period			Long		
Degree of protection			IP20, clean environment		
Installation			Independent device to be mounted inside electrical panels with DIN rail (IEC 60715)		
Minimum clearances			Not required		
Response on KNX bus failure			Data saving according to parameterization		
Response on KNX bus restart			Data recovery according to parameterization		
Operation indicator			The programming LED indicates programming mode (red) and test mode (green). Each output LED indicates its status.		
Weight			80 g		
PCB CTI index			175 V		
Housing material			PC FR V0 halogen free		

[1] Maximum consumption in the worst-case scenario (KNX Fan-In model).

0-10V OUTPUTS SPECIFICATIONS AND CONNECTIONS

CONCEPT	DESCRIPTION
Number of outputs	2
Output type	0-10 VDC
Maximum load per output	2 mA
Connection method	Screw terminal block (0.4 Nm max.)
Cable cross-section	0.5-2.5 mm² (IEC) / 26-12 AWG (UL)
Maximum cable length	30 m
Output per common	1

0-10V / 4-20mA INPUTS SPECIFICATIONS AND CONNECTIONS

CONCEPT	DESCRIPTION
Number of inputs	2
Operation voltage	0-10 VDC
Operation current	4-20 mA
Connection method	Screw terminal block (0.4 Nm max.)
Cable cross-section	0.5-2.5 mm² (IEC) / 26-12 AWG (UL)
Maximum cable length	30 m

Note: Each of the two pairs of terminals can act as an input or an output according to its parameterization.

⚠ SAFETY INSTRUCTIONS AND ADDITIONAL NOTES

- Installation should only be performed by qualified professionals according to the laws and regulations applicable in each country.
- Do not connect the mains voltage nor any other external voltage to any point of the KNX bus; it would represent a risk for the entire KNX system. The facility must have enough insulation between the mains (or auxiliary) voltage and the KNX bus or the wires of other accessories, in case of being installed.
- Once the device is installed (in the panel or box), it must not be accessible from outside.
- Keep the device away from water (condensation over the device included) and do not cover it with clothes, paper or any other material while in use.
- The WEEE logo means that this device contains electronic parts and it must be properly disposed of by following the instructions at https://www.zennio.com/en/legal/weee-regulation.
- This device contains software subject to specific licences. For details, please refer to https://zennio.com/licenses.
